## DETAILED ACTION

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1-3, 9, 15 and 16 are rejected under 35 U. S. C. 102(e) as being anticipated by  
Bulsara et al. (US 6,891,209, herein after Bulsara).

Bulsara discloses in fig. 3 and col. 6, lines 30-58 a method for fabricating a semiconductor structure comprising the steps of: providing a semiconductor substrate 10 having a strained-layer free region 310; forming a first device (DRAM trench capacitor 300) in the strained layer-free region 310 of the semiconductor substrate 10; selectively forming a strained layer region 320 in the semiconductor substrate; and forming a second device in the strained layer region (col. 6, lines 39-42).
